MEET ARGYLE'S ENERGY NEEDS!

PROTECT ARGYLE'S ECONOMY!

THE GLOBAL ENERGY GAME®

A Small Group Cooperative Learning Simulation

Welcome to the Island of Argyle!

Argyle is a beautiful country with many natural features, but it relies on fossil fuels for its transportation and energy needs, creating air quality problems and contributing to global climate change. As the nations's elected officials, your mission is to provide adequate energy while maintaining a healthy environment and a strong economy for the people of Argyle. You will accomplish these goals through your personal lifestyle choices and voting decisions. Good luck!
